

LIFE Networking Event

December 12th, 2019, Nicosia

Guest Speaker:

Beatriz del Castillo Parra,
FCC Aqualia S.A.

Presentation Topic

Ms. Beatriz del Castillo Parra will talk to us about the year-long experience of FCC Aqualia S.A. with LIFE Projects. Aqualia is currently running 10 LIFE Projects - A truly impressive number! Two of the most recent Projects are LIFE ULISES, dealing with more efficient energy and resource recovery from Europe's wastewater, and LIFE INTEXT, focusing on novel wastewater treatment in remote areas.

Biography

Ms. Beatriz del Castillo Parra is the European Projects Manager at the Department of Innovation and Technology of FCC Aqualia S.A. She holds a Master's Degree in Business Administration (MBA) from the University Camilo José Cela and a Master's Degree in Forest Engineering from Madrid Polytechnic University. She was for 14 years the Manager of a Spanish Entrepreneurial Association dealing with stakeholder activities, as sector representative in other Spanish and European Institutions, forums, high-level groups, etc. She also has 19 years of experience working on international projects, co-financed by the European Commission, in various programmes (H2020, FP7, Life, LEONARDO, INTERREG) and national projects funded by the Spanish Ministry for Economics and Competitiveness, Environmental Ministry, Education Ministry and other various sources. In addition, as R&D Senior Consultant for Econet, she has developed the Smart Specialisation Strategy Galicia-Northern Portugal (RIS3T) and the R&D Galician Strategic Plan 2014-2020.
