

LIFE Networking Event

December 12th, 2019, Nicosia

Guest Speaker:

Dr. Vassilis Protonotarios
NEUROPUBLIC S.A.

Presentation Topic

Dr. Vassilis Protonotarios will present the LIFE GAIA Sense project (www.lifegaiasense.eu), which aims to demonstrate the benefits of smart farming for the environment and for circular economy models. His presentation will focus on the aims, objectives and work done in the context of the LIFE GAIA Sense project, including the challenges & opportunities for the future, along with information on the gaiasense smart farming system.

Biography

Dr. Protonotarios is the Outreach & Networking Manager of NEUROPUBLIC S.A., ensuring – among others - the communication & dissemination of the company's activities, as well as the activities of the company's projects. Combining his agronomic background with his experience in communication, he is an active contributor to the company's gaiasense smart farming system (www.gaiasense.gr/en).

Vassilis holds a BSc, MSc and PhD in Agricultural Biotechnology, all from the Agricultural University of Athens. He has been involved in the management and implementation of numerous EU-funded projects since 2009, covering various aspects of the agrifood sector, such as information & knowledge management, communication and training, use of ICT in agriculture etc. He has co-authored a number of research publications published in peer-reviewed journals and Conference proceedings.

In the past, he has worked for the Agricultural University of Athens, the Greek Research & Technology Network, the University of Alcalá (Spain) and Agroknow. He has also worked as a research associate for international organisations, such as UN FAO, IFOAM EU and the Open Data Institute.
