

Benefits to Cyprus from the LIFE Cyclamen project

Elena Stylianopoulou

LIFE Cyclamen Project Manager
Nature Protection & Conservation Unit

3rd November 2021

The Challenge and Objective

1. Challenge

- Participation Level of Cyprus

2. Objective

- Empower and capacitate the Cypriot LIFE NCP with personnel, competences, skills, knowledge, experiences and networking, to enhance the effectiveness and outreach of its services to applicants, and ultimately increase the performance of Cypriot proposals to the LIFE Programme, both in numbers and in quality.

Benefits to Cyprus

1. Increased overall support to applicants & beneficiaries

- Various services: Prescreening, practical workshops on how to write a LIFE Proposal, Info Days, targeted meetings with interest groups, trainings on how to manage a project etc.

2. Increased participation

- More organisations and bodies are now interested and participating in the LIFE Programme

Benefits to Cyprus

3. Implementation of EU regulation

- Through Running and Completed LIFE projects covering topics related to Nature, Environment and Climate Action.

4. Two Integrated LIFE projects

- LIFE IP Physis
- LIFE IP CYZERO WASTE

Benefits to Cyprus

5. National co-financing for IP projects

- What have we achieved...

6. Increased awareness around LIFE & Acceptance

- i.e. LIFE IP Physis and IP CYZERO WASTE consortium

Thank you!

Elena Stylianopoulou

LIFE Cyclamen Project Manager,
Nature and Conservation Unit Head
